SUMMARY

IT & System Development Specialist with experience in building ERP systems from the ground up, performing workflow analysis, QA testing, automation, and managing day-to-day IT infrastructure. Strong in Laravel development, business process alignment, and technical troubleshooting. Focused on delivering reliable, efficient, and scalable digital solutions.

EXPERIENCE

PT The Costume Magnifique – Batam, Indonesia

IT & System Development Specialist (July 2024 – December 2025)

- Rebuilt the company’s ERP system from the ground up using Laravel, improving workflow accuracy by ~30% and creating a maintainable, business-aligned system to replace the outdated vendor-built platform.
- Designed, tested, validated, enhanced, and maintained multiple ERP modules (Inventory, Production, Project, Procurement, Finance, HR), ensuring functional accuracy and reducing manual reporting time by 40–60% through structured workflow alignment.
- Managed core IT infrastructure, including hardware troubleshooting, software support, network maintenance, server setup, and CCTV/NVR operations, while resolving approximately 90% of daily IT tickets within one working day to maintain stable operations.
- Built automation integrating WhatsApp reporting into Google Sheets, significantly streamlining data collection and reducing repetitive manual input.

UPT Puskesmas Tanjung Berlian – Karimun, Indonesia

Web Developer (December 2022 – December 2023)

- Developed and maintained Laravel-based public health information websites, improving content accessibility and ensuring stable platform performance for daily community users.
- Implemented new features, performed updates, and resolved technical issues to ensure optimal functionality.

Desa Wisata Purbayan – Yogyakarta, Indonesia

Back End Developer Intern (February 2021 – September 2021)

- Developed a tourism website using CodeIgniter 3 to promote local destinations, improving digital visibility for the village’s tourism programs.
- Supported digital marketing initiatives and market research, helping the village strengthen online engagement and attract potential visitors.

EDUCATION

Bachelor of Informatics – Ahmad Dahlan University, Yogyakarta (2024), GPA 3.55
